

New HiRe

IT Recruitment Consulting Service

We are different from others;

01

We communicate with IT professionals on the right frequency and create suitable plans for candidates.

02

We work with IT Recruitment Consultants who have technical expertise.

03

We stay up to date with industry developments and develop AI- powered recruitment methods.

04

With 15 years of experience, we approach experts in their field consciously and carefully, utilizing the talent hunting method.

05

We conduct in- depth technical interviews and reporting, and when necessary, assess technical competencies through case studies.

06

We navigate recruitment processes with loyalty and industry expertise, protecting your budget through targeted offers and supporting your growth.
